General information

An area in a day campsite is expanded.

Area expansion in the day camp square where a test was used to the degree of 2023 will receive that I received a reputation from the users and go from the degree of 2024 continuously as this practical use. Please also defend manners and a rule from now on and use a square.

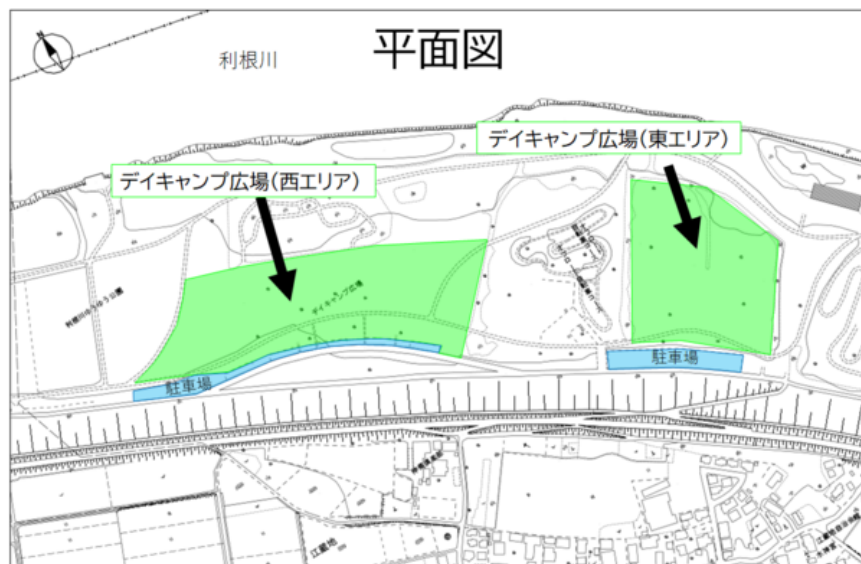

Goal

To expand a parking space and installation space of a tent, because demand in outdoor leisure increases, and the many users gather in long holidays, I open a picnic terrace by the waterside as a day camp square and plan for relaxation of crowding.

Tone River Yu-Yu Park day camp square

The outline of Facilities

The area of the day camp square is about 2 hectares. There are 12 outdoors tables (it's available by a wheelchair, 2 sets), 9 barbecue sites, a campfire club, a glass wash place and parking lot (50 cars) etc..

Favor to everybody using a day camp square

Without bringing charcoal and trash home, the situation thrown away is happened to see by a certain heartless person. To have everybody use it comfortably, please **be sure to** bring charcoal and trash back.

It increases in a report of a camp act by all except for a designation place. When finding it, you'll **remove and move immediately**.

You can't camp with a stay.

It'll be trouble of the other users and vicinage, so please never do use at any place but a designated place.

Please be careful about handling of the fire sufficiently and use it (An open fire is prohibited.) ※ An open fire is the ground and getting the fire going directly is meant.

It's to receive everybody's understanding and cooperation, and it becomes possible to open a square for free of charge. Please defend a rule and manners and use it for safety and comfortableness also to have many persons use it from now on.

Fire occurred at a square! (Reminders)

Fire occurred around the north side playground equipment in a Tone River Yu-Yu Park day camp square at around 1 o'clock of lunch (on Saturday) on 2023 January 21.

About 650 square meters of grassland was tanned with this fire, but the spread to the whole square was saved by the person's early stage fire extinction activity that I was in the neighborhood fortunately also there was no damage of an injured person and playground equipment.

When building a bonfire at a square, the cause of the fire was fanned into a wind, was because a spark scattered and a grassland caught fire, and was burned to wide range by the season pattern, the air which dried and strong wind.

Because not the one performed intentionally, but the damage was also minimal this time, "When making a mistake in one step, it led to a horrible accident. Please confirm the surrounding circumstances sufficiently in case of use in a square, defend a rule and manners and use it by safety first." was warned strictly for a person of a cause person of fire (park visitor).

Because air dries much and hay is easy for strong wind to generate, a winter has to treat the fire more carefully more than usual. Such as also paying attention to the weather and the surrounding circumstances sufficiently in the purpose which doesn't cause an important accident, never doing an open fire, using stands for bonfires and seats, etc. and bringing burned wood and fuel, etc. home accurately, consider sufficiently, and please use a square for a fire measure.

Since putting it for used everybody, please take care of cooperation in safe and comfortable square use while defending a rule and manners and considering each other.
